Sustainability Insights

Danske Invest SICAV Danish Mortgage Bond Class A

Marketing communication

Danske Bank Danske Invest

Introduction

This document offers a comprehensive overview of the sustainability features and performance of this specific fund, focusing on its alignment with binding sustainability commitments.

It provides clear and factual information on key sustainability aspects, including the fund's performance in areas such as sustainable inclusion, active ownership and exclusion practices. The data included in this report is based on already reported data from the fund's most recently available SFDR annual report.

By presenting the fund's sustainability profile, the document reflects Danske Bank's commitment to transparency and responsible investing, supporting investors in making informed decisions that align with their financial goals and sustainability preferences.

Sustainability features

Danske Invest SICAV Danish Mortgage Bond Class A

What are sustainability features?

This fund is guided by binding sustainability commitments, which are defined in its investment strategy and legal documentation. These commitments ensure that specific sustainability principles and criteria are consistently applied throughout the investment process. They may include obligations to include defined sustainability features, exclude certain types of investments, and engage in active ownership activities such as engagement and voting. By adhering to these binding commitments, the fund ensures accountability and transparency in its approach to sustainability.

Active Ownership – engagements

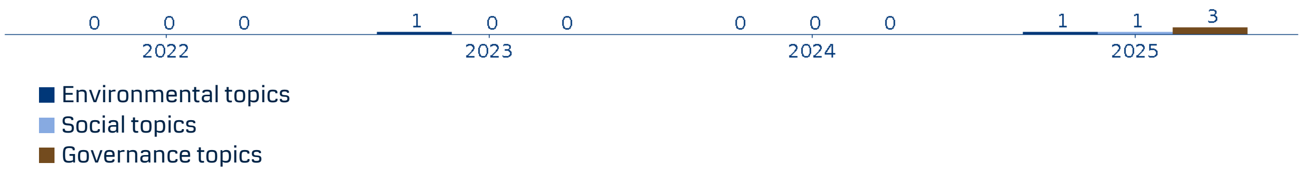
Danske Invest SICAV Danish Mortgage Bond Class A

What is active ownership?

The product use active ownership as a measure to protect the value of our customers' investments and to manage the Principal Adverse Impact of the investments. In this product it is done through engagement with the companies we invest in.

Engagements

Danske Bank engages with issuers on financial, sustainability or other material topics. This is done to seek information or encourage better sustainability practices.



EU Taxonomy

Danske Invest SICAV Danish Mortgage Bond Class A

What is the EU Taxonomy?

The EU taxonomy is a classification system that defines which economic activities are environmentally sustainable. It supports investments in activities that align with the EU's goal of net zero emissions by 2050 and other environmental goals.

EU Taxonomy-aligned revenue
% of portfolio
0%

Revenue: Total income generated from sales of products or services.
Capital Expenditures (CapEx): Long-term investments in assets like buildings, machinery or technology.
Operational Expenditures (OpEx): Daily costs to run the business, like raw materials, utilities or maintenance and repairs.
