Objectives and investment policy

Objectives

The objective of this alternative investment fund is to achieve investment growth in any type of market conditions (absolute return). The share class is accumulating.

Investment policy

The fund seeks exposure to volatility risk premia embedded in equities, fixed income, credit, currencies and money market instruments from anywhere in the world with a focus on developed markets. The investment strategies are implemented using primarily derivatives such as options, futures and swaps. The fund will invest its remaining assets in high credit quality debt instruments, such as bonds issued by governments and credit institutions, money market instruments and/or short-term deposits.

The fund is categorised as article 8 under SFDR and promotes environmental and/or social characteristics, as well as good governance practices, through screening, exclusions, investment analysis and decision-making as well as active ownership. The fund follows Danske Invest's responsible investment policy.

The fund may use derivatives for hedging and efficient portfolio management, as well as for investment purposes. Expected leverage is 800% to 1,000% with an expected maximum of 4,000%.

The main part of the share class' NAV will be hedged against the base currency of the fund. However, the share class remains exposed to the currencies of the investments in the fund.

Recommendation: The fund may not be appropriate for investors who plan to redeem their money within 3 years.

Return in the period: 30.09.2026 - 30.09.2026

The default for the chart is the return for the past 5 years as of end of month or, if the fund is less than 5 years old, since launch. Past performance is not a reliable indicator of future results. Future returns may be negative. The return may increase and decrease as a result of currency fluctuations if the fund is issued in a currency other than the currency used in the country in which you are domiciled.
